OBJECTIVE

Highly skilled and motivated Front-End Developer with extensive experience in designing and implementing responsive web applications. Proficient in React.js, Next.js, Tailwind CSS, and various other technologies, with a strong foundation in backend development using Flask and Python. With a Bachelor's degree in Mechatronics Engineering, I am determined to bring unique interdisciplinary approaches to problem-solving and innovation. Seeking to leverage my technical expertise, engineering knowledge, and collaborative skills to contribute to innovative projects and drive success in a dynamic and growth-oriented organization.

SKILLS

Proficient: React.js | Next.js | Three.js | Redux | Tailwind CSS | Python | Flask | JavaScript | PostgreSQL | SQLAlchemy | Mongodb | Microsoft Azure | AWS | Kubernetes

Moderate: React Native, Node.js, Ajax, Java, JavaFx.

PROJECTS

King David Elites. https://king-david-elite.vercel.app/

2022

- Implemented the responsive design for **King David Elites** Desktop/Mobile Site.
- Contributed to the backend API structure required to interact with the Frontend.
- Created the required functionalities needed

Rediones https://rediones-fe.vercel.app **(For Mobile)**

A social media platform which I am still building currently in collaboration with others.

- It is a closed source project and its purpose is to connect all students in every universities across the world together, with some more features other that the regular social media features

Gommerce (E-commerce Site)

2022

- Collaborated with the backend team on the open source project structure.
- Discussed and deliberated on the best Flask libraries to use, when developing the Schemas and Routes.

WORK EXPERIENCE

Front End Developer Jan. 2024 - till date
FreexIT Technologies

- Implemented responsive and accessible UI components using Tailwind CSS and modern design systems.
- Ensured application security and performance through rigorous testing and code reviews.
- Collaborated with cross-functional teams in different zones to ensure consistent feature delivery.
- Integrated CI/CD pipelines for streamlined deployment workflows and minimal downtime.
- Improved the overall efficiency of the project progress by 80%
- Deployed application across multiple environments including staging, development, and production.
- Utilized Next.js and TypeScript for robust, scalable, and maintainable front-end architecture.
- Designed and developed a comprehensive admin dashboard tailored for efficient system management.

Front End Developer Feb. 2024 – Jun. 2025
Alps (Remote), United States https://tryalps.com

- Developed scalable, modular and reusable components using Next.js, ensuring maintainability and performance.
- Implemented SEO best practices by integrating structured metadata optimizing for keyword relevance, improving visibility across search engines.
- Spearheaded the end-to-end frontend development of the Alps application, delivering a fully responsive and intuitive user interface.
- Collaborated with the Backend Engineer to produce and implement outstanding user friendly designs during project development.
- Actively contributed immensely during the brainstorming session and suggested invaluable Ideas.

Front End Developer July. 2023 – Jan. 2024
Creos Community (Remote)

- Developed and maintained a responsive school management dashboard for the Curious Kidz project using Next.js and Tailwind CSS.
- Collaborated with the Backend Engineers and the team lead to produce and implement outstanding user friendly designs during project development.
- Transformed design mockups into fully functional interfaces, ensuring consistency across devices and screen sizes.

- Contributed to code reviews and team discussions, promoting best practices and performance optimizations throughout development.

Front End Developer July. 2022 – Feb. 2025

Connecting Skillz, (Remote), United Kingdom

- Designed scalable and reusable React.js Components.
- Collaborated with the Backend Engineers and the Team lead to produce and implement outstanding user friendly designs during project development.
- Actively supported the agile development cycle, incorporating feedback quickly and effectively during sprints.

EDUCATION

FEDERAL UNIVERSITY OF AGRICULTURE ABEOUKUTA Oct. 2019 - Jul. 2025

- Bachelor's degree in Mechatronics Engineering

UDACITY May. 2022 – Aug. 2022

- Full Stack Developer **Nanodegree**
