Profile

Front-End Developer with a background in Mechatronics Engineering and with years of experience building responsive, scalable web applications using React, Next.js, and Tailwind CSS. Passionate about performance, clean UI architecture, and bridging engineering with software innovation.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, React, Next, Node.js, Python, Flask, React Query, React Native

Styling: Tailwind CSS, CSS3, HTML5

State/Databases: Redux, Zustand, PostgreSQL, MongoDB, SQLAlchemy

DevOps & Tools: Docker, Kubernetes, AWS, Azure, Git, CI/CD

Testing: Jest, Cypress.

Professional Experience

Front End Developer Jan. 2024 - till date
FreexiT Technologies

- Implemented responsive and accessible UI components using Tailwind CSS and modern design systems.
- Ensured application security and performance through rigorous testing and code reviews.
- Collaborated with cross-functional teams in different zones to ensure consistent feature delivery.
- Integrated CI/CD pipelines for streamlined deployment workflows and minimal downtime.
- Improved the overall efficiency of the project progress by 80%
- Deployed application across multiple environments including staging, development, and production.
- Utilized Next.js and TypeScript for robust, scalable, and maintainable front-end architecture.
- Designed and developed a comprehensive admin dashboard tailored for efficient system management.

Front End Developer Feb. 2024 – Jun. 2025
Alps (Remote), United States

- Developed scalable, modular and reusable components using Next.js, ensuring maintainability and performance.
- Implemented SEO best practices by integrating structured metadata optimizing for keyword relevance, improving visibility across search engines.

- Spearheaded the end-to-end frontend development of the Alps application, delivering a fully responsive and intuitive user interface.
- Collaborated with the Backend Engineer to produce and implement outstanding user friendly designs during project development.
- Actively contributed immensely during the brainstorming session and suggested invaluable Ideas.

Front End Developer July. 2023 – Jan. 2024
Creos Community (Remote)

- Developed and maintained a responsive school management dashboard for the Curious Kidz project using Next.js and Tailwind CSS.
- Collaborated with the Backend Engineers and the team lead to produce and implement outstanding user friendly designs during project development.
- Transformed design mockups into fully functional interfaces, ensuring consistency across devices and screen sizes.
- Contributed to code reviews and team discussions, promoting best practices and performance optimizations throughout development.

Front End Developer July. 2022 – Feb. 2025
Connecting Skillz, (Remote), United Kingdom

- Designed scalable and reusable React Components.
- Collaborated with the Backend Engineers and the Team lead to produce and implement outstanding user friendly designs during project development.
- Actively supported the agile development cycle, incorporating feedback quickly and effectively during sprints.

Side Projects

Alps. https://tryalps.com **2024**
This Platform is build to simplify and centralize your documentation process with ease. Seamlessly organize playlists and keep everything structured for better productivity. Streamline the way you collect, manage, and act on feedback from your users. All while creating an empowering experience that puts your customers first, effortlessly.

King David Elites. https://king-david-elite.vercel.app/ **2022**
The King David Elites Marketplace is your gateway to an elite world of distinction. Discover only the most exclusive and top-tier real estate, automobiles, and luxury services. From rare collectibles to refined lifestyle offerings, every listing reflects exceptional quality. This is where sophistication meets exclusivity for those who demand nothing but the best.

Gommerce (E-commerce Site) **2022**
Collaborated with the backend team on the open source project structure and also discussed and deliberated on the best Flask libraries to use, when developing the Schemas and Routes for the Gommerce Backend Services.

EDUCATION

FEDERAL UNIVERSITY OF AGRICULTURE ABEOUKUTA Oct. 2019 - Jul. 2025

- Bachelor's degree in Mechatronics Engineering

UDACITY May. 2022 – Aug. 2022

- Full Stack Developer **Nanodegree**
