OBJECTIVE

Highly skilled and motivated Front-End Developer with extensive experience in designing and implementing responsive web applications. Proficient in React.js, Next.js, Tailwind CSS, and various other technologies, with a strong foundation in backend development using Flask and Python. Currently pursuing a Bachelor's degree in Mechatronics Engineering, bringing a unique interdisciplinary approach to problem-solving and innovation. Seeking to leverage my technical expertise, engineering knowledge, and collaborative skills to contribute to innovative projects and drive success in a dynamic and growth-oriented organization.

SKILLS

Proficient: React.js | Next.js | Three.js | Redux | Tailwind CSS | Python | Flask | JavaScript | PostgreSQL | SQLAlchemy | Mongodb | Microsoft Word| Excel | Power Point | PhotoShop | CorelDraw

Moderate: React Native. Node.js, Ajax, Java, JavaFx.

PROJECTS

King David Elites. https://king-david-elite.vercel.app/

2022

- Implemented the responsive design for **King David Elites** Desktop/Mobile Site.
- Contributed to the backend API structure required to interact with the Frontend.
- Created the required functionalities needed

Rediones https://rediones-fe.vercel.app **(For Mobile)**

A social media platform which I am still building currently in collaboration with others.

- It is a closed source project and its purpose is to connect all students in every universities across the world together, with some more features other that the regular social media features

Gommerce (E-commerce Site)

2022

- Collaborated with the backend team on the open source project structure.
- Discussed and deliberated on the best Flask libraries to use, when developing the Schemas and Routes.

SIDE PROJECT:

JavaScript Library (Carousel) https://github.com/Folayimi/Carousel_Libraries
2020

- Developed a Library that helps JavaScript Frontend Developers easily create a Carousel Slide.
- Ensured that it is highly responsive regardless of the screen size using a well styled CSS structure.

WORK EXPERIENCE

Front End Developer Jan. 2024 - till date
FreexIT Technologies

- Designed scalable and reusable React.js Components.
- Single handedly developed the Dashboard of the Alps application
- Collaborated with the Backend Engineer to produce and implement outstanding user friendly designs during project development.
- Contributed immensely during the brainstorming session and suggested invaluable Ideas.

Front End Developer Feb. 2023 – till date.
Alps (Remote), United States https://tryalps.com

- Designed scalable and reusable React.js Components.
- Single handedly developed the Frontend of the Alps application
- Collaborated with the Backend Engineer to produce and implement outstanding user friendly designs during project development.
- Contributed immensely during the brainstorming session and suggested invaluable Ideas.

Front End Developer July. 2023 – Jan. 2024
Creos Community (Remote), https://ck-kids-dashboard.vercel.app

- Worked on a school project called **curiouz kidz.**
- Collaborated with the Backend Engineers and **the** Team lead to produce and implement outstanding user friendly designs during project development.
- Contributed immensely during the brainstorming session and suggested invaluable Ideas.
- Created the project using Next.js and Tailwind CSS

Front End Developer July 2022 – 2023
Connecting Skillz, (Remote), United Kingdom https://cslxp-frontend.vercel.app

- Designed scalable and reusable React.js Components.
- Collaborated with the Backend Engineers and the Team lead to produce and implement outstanding user friendly designs during project development.
- Contributed immensely during the brainstorming session and suggested invaluable Ideas.

EDUCATION

UDACITY May. 2022 – Aug. 2022

- Full Stack Developer **Nanodegree**

Link: https://graduation.udacity.com/confirm/HAPACXEE

FEDERAL UNIVERSITY OF AGRICULTURE ABEOUKUTA October. 2019 - till date

- Pursuing Bachelor degree in Mechatronics Engineering
