OGUNLADE RIDWAN FOLAYIMI

Mobile App Engineer | Flutter, Dart & React Native

Lagos, Nigeria | +234 807 444 2379 | +234 812 408 6854 | ridwanfolayimi@gmail.com
Portfolio: ridwan-portfolio-xi.vercel.app | LinkedIn: linkedin.com/in/ridwan-ogunlade-1a9610369 | GitHub: github.com/Folayimi

PROFILE

Mobile App Engineer experienced in cross-platform development with Flutter, Dart, React Native, and Expo. Builds application workflows, integrates backend services, and collaborates with developers to deliver practical mobile products. Also experienced with React and Next.js for frontend web development.

TECHNICAL SKILLS

Mobile: Flutter, Dart, React Native, Expo, Expo Router
Web: React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
State: GetX, Redux Toolkit, React Hooks | APIs: REST, Dio, Axios, JSON, multipart requests
Mobile workflows: OTP, authentication, token handling, local persistence, messaging, Socket.IO, WebSockets, file and image uploads, payments, WebView
Tools: Git, GitHub, Android Studio, Visual Studio Code, EAS Build

PROFESSIONAL EXPERIENCE

InsureOnGo | Mobile App Engineer | 2025 - Present

- Develop and maintain a Flutter application for a digital insurance platform; integrate REST services with Dio.
- Build phone sign-in with email OTP, insurance discovery, listings, quotations, cart, and Paystack payment workflows.
- Support claims image uploads, file selection, profiles, notifications, customer support, WebView, local storage, debugging, and Android releases.

Flutter, Dart, GetX, Dio, REST APIs, GetStorage, Paystack

SchoolHouse | Mobile App Engineer / Development Coordinator | Contract | Sep - Oct 2026

- Contribute role-based mobile experiences for Super Admins, School Admins, Teachers, and Parents.
- Work on school registration and documents, profiles, school information, dashboard statistics, API integration, and conversation retrieval.
- Integrate Socket.IO messaging alongside REST message operations; coordinate implementation and feature integration with another developer.

React Native, Expo, TypeScript, Expo Router, Axios, REST APIs, Socket.IO

Alps | Frontend Developer | Contract | Feb 2024 - Jun 2025

- Develop frontend features for a web help and documentation platform, including articles, videos, playlists, and guides.
- Implement configurable themes, domain verification, feedback and activity interfaces, API integrations, and reusable UI components.

React, Next.js, TypeScript, REST APIs

Connectin Skillz - My Bridge International | Mobile App Engineer | Oct 2022 - Oct 2026

- Build features for a healthcare-focused networking and knowledge-sharing app: connections, product listings, messaging, and events.
- Develop article and journal upload and submission workflows; integrate APIs and reusable Flutter components.

Flutter, Dart, REST APIs

PROFESSIONAL EXPERIENCE - CONTINUED

FreexiT Technologies | Frontend Engineer | Jan 2024 - Jan 2026 | Remote

- Build responsive interfaces and an internal administration dashboard with Next.js, TypeScript, and Tailwind CSS.
- Collaborate with distributed teams on API integration, implementation reviews, and release workflows.

Creos Community - Curious Kidz | Frontend Engineer | Jul 2023 - Jan 2024 | Remote

- Build responsive school management dashboard interfaces and translate designs for multiple screen sizes.
- Collaborate with backend engineers on school administration workflows.

SELECTED PROJECTS

Haggle | Marketplace side project

A side project exploring product and service discovery with negotiation at the center. Concept areas include seller details, saved items, and reusable marketplace listing patterns.

King David Elites | Marketplace

Developed a responsive marketplace for luxury listings with search, dynamic filtering, custom pagination, and payment and inventory API integrations.

Gommerce | Open-source collaboration

Collaborated on a multi-vendor commerce backend, contributing to API schemas and role-based routing.

Flask, PostgreSQL, SQLAlchemy

EDUCATION

Federal University of Agriculture, Abeokuta (FUNAAB) | Oct 2019 - Jul 2025

Bachelor of Engineering (B.Eng.), Mechatronics Engineering | CGPA: 4.11

CERTIFICATIONS & COMMUNITY

Udacity - Full Stack Developer Nanodegree | May 2022 - Aug 2022
Hacklab Hackathon Certificate | 2022
Google Developer Student Clubs (GDSC) - Volunteer Tutor, supporting foundational frontend learning.
